

PURPLE MASH

Student basics

Once logged in students will be able to show you the work they have done in school and explore the activities themselves.

Teachers can also upload worksheets to here

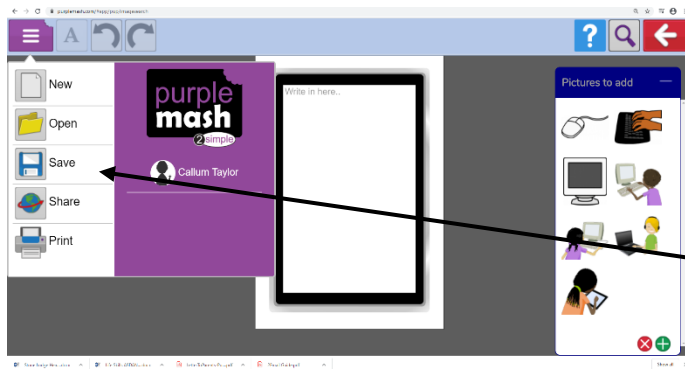

There is an email system on Purple Mash, the quickest way to access this is to type 2Email into the search bar. Students can email each other and teachers using this.

The student can access tools which has lots of 2Simple software well worth exploring.

Teachers can set work to do, the children can complete the work and once saved the teacher can send comments and give awards

Some activities on Purple Mash have video instructions and some written, it is important that the students watch these in order to fully understand the tasks.

Once the student has completed a task/piece of work on Purple Mash they need to save what they have done so that their teacher can provide feedback. All files need to be given a name in order to save them.
