ME

## A little about me.....

- I live in Norwich with my Son, my husband and my many animals, my step-son doesn't live with us all the time as he is in the Royal Artillery Regiment in the army and is quite far away, but comes home when he has time off.
- At the weekends I am a football Mum If I'm not standing at a pitch watching my son then I am at home watching Manchester City Play on the tv.
- I don't always wear my glasses especially when I am at home, and sometimes when I am at school I might have to take them off, but I am still me.

Supporting the children, watching and seeing the progression and helping them to achieve and grow is a really important to me, this makes Mrs Hambling really Happy.
